MOBILE SEATING SYSTEM

SATTEL OTTOMAN

## **SATTEL**

“Sattel was designed for the new level of flexibility and control that is demanded in our classrooms and office spaces” said Fernando Ramirez, lead designer at Common Object. “Its soft playful design fits effortlessly into third spaces while its hard-working versatility can bring those spaces to life with break-out collaborative sessions, serendipitous personal connections, or small group work in the classroom.”

Create a soft colorful stack of Sattel stools that are ready to be deployed at a moment's notice or nest the Sattels on the Sattel Bank (bench) to provide even more seating. The quiet handle, lightweight construction, and plush comfortable sit make for a unique solution that empowers users to make their space work for them. From serendipitous pop-up seating to break-out collaboration sessions. The Sattel is designed to accommodate many uses through its ease of stacking, ease of carrying (lightweight), plush comfort, and striking aesthetic. If you require more mobility, stack Sattel stools on the Wagen and take your classroom or work session anywhere you desire. The Wagen features smooth motion swiveling casters and a handle to help guide the way.

Wagen: 3 Units

Bank: 3 Units

# SATTEL

## Quiet Handle

Intentionally integrated into the design as a functional accent.

## Layered Foam

Support and comfort are achieved through the use of an engineer specified layered foam configuration.

## Tolerance

In order to stack correctly and easily be removed, the design and production tolerances are met at a critical level.

## Glides

Protect legs from impact and friction damage.

## Molded Ply Frame

Strong internal structure supports adult weight requirements.
