# THE BRAND

Take our love for materials, fascination for how people work, the manner in which they collaborate and it's clear why we're so passionate about SIXINCH®. Our roots have always been in upholstery and with the addition of coated foam we're able to expand our materials story – bringing a fresh look to the world of furniture design.

IT'S MORE THAN FURNITURE, IT'S A LIFESTYLE.

Collaborate!

# OUR MISSION

We build iconic environments that are distinctly original. Our team of designers and engineers are detailed to a fault. We have the ability to not only dream, but also “do”. Every piece that bears the SIXINCH label is held to the highest standards in the industry.

## BRAND PROMISE –

We offer our customers endless creativity, backed by generations of industry experience. We deliver through quality, creativity and flexibility. We’re here to help you create, entertain and work (a little).

BORN TO COLLABORATE

BOUND BY FURNITURE

# DNA

## INTEGRATING ART, CULTURE & FURNITURE

If you're looking for a furniture brand that can perform across industries you've found it. SIXINCH offers coated, upholstered and rotomolded furniture that screams "look at me". Our museumesque modular landscape pieces will take your breath away. Wanna get creative? Our unique Wrapz program allows you to print your artwork on our bubbles and chairs as an act of brand expression.

We've been one of the only successful foam coating furniture companies in the world. As we've grown, we've continued to expand our portfolio of upholstered products. With over 30 years in the industry, we know what it takes to do upholstery right. In fact, we challenge you to find better. Our furniture creates a culture of togetherness by evoking emotion. It's more than just a place to sit, it's the experience.

# OUR ROOTS

Founded in Belgium in 2003, SIXINCH was born through a passion for innovative materials and progressive design.

In 2013, SIXINCH Belgium partnered with Wieland Designs, a well-respected company in the furniture industry, and expanded the footprint for one of the most talked about furniture brands in the world. The name SIXINCH comes from the space between our ears, a mere 150 mm wide, or six inches. Within that space your creativity is endless.

# IT'S FLEXPLUS™

FlexPlus™ coating provides options beyond traditional upholstery and is the brand's key differentiator.

FlexPlus is made up of three layers; polyurethane primer, polyurethane reactor (A/B), and color coat. The end product is rated for high-traffic areas and is 100% waterproof – use it indoor or outdoor!

# IT'S UPHOLSTERY

With more than 30 years in the industry, we know what it takes to do upholstery right. We challenge you to find someone better in contract furniture.

Extensively trained and highly-skilled, our thread artisans pour unparalleled craftsmanship and love into each product we produce. Working with your own fabric? No problem, we specialize in material flexibility. Choose your path and let us assist you as a creative and manufacturing partner.

WE COLLABORATE WITH SOME OF THE MOST CREATIVE PEOPLE IN THEIR RESPECTIVE INDUSTRIES.

OUR FURNITURE MAKES A BOLD STATEMENT  
THAT DRAWS US ALL TOGETHER.

# PRODUCT CYCLE

## Development

SIXINCH products are designed with materials that are able to be reused or recycled. We use specific foam for all products, along with developing EPS core foam to reduce the amount of open cell foam needed. Our fabric options are plentiful and durable, with several graded-in. We are also COM friendly. We powder coat most of our metal and offer an array of standard colors.

## Virgin Materials

Foam is sourced locally using suppliers that meet the highest environmental standards of production. Cut in-house, foam waste is minimized with left over material used in other product as filler.

## Production

Most products are coated and/or assembled by hand, reducing the requirement of power to run machinery. Fabric patterns are laid out by our 2D Engineers to be as efficient as possible. We have invested in accurate cutting machinery to further reduce opportunities of error leading to waste. All manufacturing facilities have a recycling program in place for any excess material.

## Transportation & Packaging

Products are primarily shipped directly from manufacturing site to end user, reducing miles traveled and carbon footprint. Packaging is flat packed or has been custom tailored to fit each product precisely, minimizing any extra cardboard and or plastic material.

## Field Use

Simple cleaners are used to clean SIXINCH products. Power isn't necessary to operate and use most items in our portfolio. For those with built-in power, we only use highly-efficient UL certified products. Our power suppliers are some of the best in the industry.

## Retired Product

SIXINCH products have an extensive lifecycle. Eventually, a product may be deemed no longer desired for a variety of reasons. In this case, it may be sent back to SIXINCH USA to be recycled. We grind old foam product to be used as filler, and have a recycling program for metal and wood materials.

# EXPLORE

## SUSTAINABILITY IS IMPORTANT TO US.

We are dedicated to moving forward with solutions that will require more recycled product material content. We have expanded internal capabilities to meet industry demands. New techniques using recycled materials and coatings are constantly in development at SIXINCH. We are exploring methods to make our products better.

# Custom

## FURNITURE & ENVIRONMENTS

Custom furniture is a touchy topic for most in the industry, not us. With our FlexPlus™ coated foam and custom upholstery capabilities, we offer the ability to design custom seating and benching to fit most spaces. We've created everything from small stadium seat pads to fully padded rooms. If you have a need, we'll work with you to come up with a solution that works best for your budget and space.

Lounge Seating

## PRODUCT MATERIAL

Powder Coated Al-Mg<sup>3</sup> Alloy Shell with Steel Base  
Upholstered Foam Seat

## ABOUT ALMG

Designed by Pieter Maes, the lounge chair name evolved from Al-Mg<sup>3</sup> – the thinnest aluminium alloy available to manufacture the chair. This seat brings an element of origami to life. The shell is made of Al-Mg<sup>3</sup> alloy and the base is a powder coated steel.

# PEANUT

Poufs

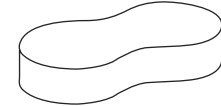

## PRODUCT MATERIAL

Upholstered Foam  
Wood Base & Plastic Glides

## ABOUT PEANUT

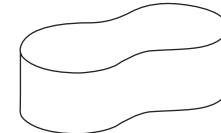

Peanut dons its name from its shape. Peanut's primary function is to be used as a support element to the Tapa. By rotating Tapa's sections gaps can form. Peanut slides into these gaps, allowing the user to create better functional seating. Peanut also makes a great 2-seat pouf as a standalone unit.

## PRODUCT DIMENSIONS

### ONE

W 32.0 x D 16.0 x H 7.5 \*Glides  
W 32.0 x D 16.0 x H 6.0 \*Zipper

### TWO

# TAPA POUF

Poufs

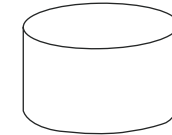

## PRODUCT MATERIAL

Upholstered Foam  
Wood Base & Plastic Glides

## ABOUT TAPA POUF

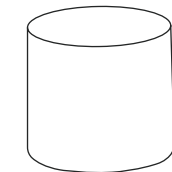

The award-winning Tapa designed by Mac Stopa offers configuration in every direction. These units have quickly become a staple for educational spaces. The Tapa Pouf is similar to our best-selling Bubble pouf, but designed to slide under a level of Tapa, allowing for even more dynamic looks and configurations.

## PRODUCT DIMENSIONS

# TAPA SQUARE POUF

Poufs

## ABOUT TAPA SQUARE POUF

The award-winning Tapa designed by Mac Stopa offers configuration in every direction. In order to fill gaps caused by rotating Tapa units, SIXINCH™ USA designed the Tapa Square Pouf. The shape is similar to the block but with rounded corners and is specifically sized to fit under a Tapa Square level to provide support.

## PRODUCT DIMENSIONS

# SATTEL BANK

Benches

**SATTEL<sup>®</sup>**  
**BANK**

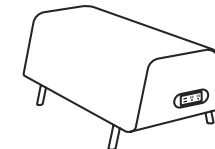

## PRODUCT MATERIAL

Foam Wrapped, Upholstered Wood Frame  
Powder Coated Metal Legs  
Integrated BYRNE<sup>®</sup> Power Supply

## ABOUT SATTEL BANK

The Sattel Bank is a static seating solution that offers storage, power and comfort. Sattel Bank serves as a stylish, powered bench that compliments individual Sattels. Storage of Sattel units is accomplished best by stacking them on the Bank - creating an aesthetically pleasing solution.

## PRODUCT DIMENSIONS

## SATTEL BANK

**W** 48.0 x **D** 22.5 x **H** 18.0

# SATTEL WAGEN

Benches

## PRODUCT MATERIAL

Powder Coated Steel Frame & Handle  
Tri-Plastics Seat & Side Panels

## ABOUT SATTEL WAGEN

The Sattel Wagen adds mobility to classrooms and workplaces. Easily transition from one location to another, indoors or outside. The Wagen features industrial grade casters suited for rolling over most terrain. The frame is powder coated steel. Seat and side panels are made of a tri-plastic material.

## PRODUCT DIMENSIONS

## SATTEL WAGEN

W 48.0 x D 22.5 x H 18.0  
SH 18.0 x SD 22.5

# SPLIT

Benches

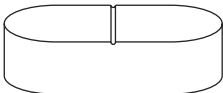

## PRODUCT MATERIAL

FlexPlus Coated or Upholstered Foam  
Wood Base & Plastic Glides

## ABOUT SPLIT

The Split features a visual split in the seat top design. In settings where boundaries can be issues, the split can be used as a visual indicator of separation. If you attempt to cross the invisible vertical barrier you are bound to hit a forcefield. Keep to your side of the bench with Split.

## PRODUCT DIMENSIONS

## SPLIT

W 62.5 x D 32.0 x H 16.5

Outdoor Ready

# STEEN TABLE

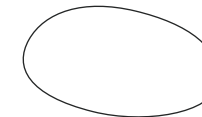

Benches

## ABOUT STEEN TABLE

Part of the Steen family, this versatile piece can be utilized as a low bench, table or large ottoman. Cultivate the earthy feel of the Steen Table with upholstery options or SIXINCH's special foam coating. The durability of the FlexPlus ensures a perfect use for high-traffic, outdoor commercial spaces.

## PRODUCT DIMENSIONS

## STEEN TABLE

## PRODUCT MATERIAL

Powder Coated Steel  
Solid Surface Acrylic

## ABOUT ELEMENTS

Taking inspiration from chemistry, the Elements line is a much larger scale version of the way individual elements come together to create elemental compounds. From a distance, they may appear to be one mass, but at a molecular level the individual elements are separated by invisible bonds. These smaller parts can then be rearranged to create something entirely new.

## PRODUCT MATERIAL

Powder Coated Steel Base  
Powder Coated MDF Top

## ABOUT ELEVATE

Take your productivity to new heights! Excellent design propels an environment forward, infusing it with new energy, functional innovation and forward-thinking creativity. Before Elevate, designers were often forced to choose between a dining ensemble and an outdoor lounge grouping. Most dining furniture is not comfortable enough for extended solitary or group work, and lounge furniture is typically too low to support a working posture or collaboration with digital or analog tools and materials.

## ABOUT BOTHY

Inspired by small shelters found in remote areas of Ireland, the Bothy (pronounced bãTHë) is a great addition to the SIXINCH line of space definition. In the world of open concept, Bothy takes the hybrid office concept to the next level. This easy-to-install, highly versatile space defining piece offers the perfect haven for people wanting to work freely without distraction – key in any work environment.

# ELEMENTS

Acoustic / Screens

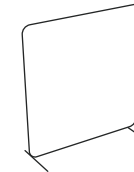

## PRODUCT MATERIAL

Powder Coated Steel  
& Upholstery

## ABOUT ELEMENTS

Taking inspiration from chemistry, the Elements line is a much larger scale version of the way individual elements come together to create elemental compounds. From a distance, they may appear to be one mass, but at a molecular level the individual elements are separated by invisible bonds. These smaller parts can then be rearranged to create something entirely new.

## PRODUCT DIMENSIONS

# CUSH'N

## SEAT PAD

Accessories

### PRODUCT MATERIAL

FlexPlus Coated or Upholstered Foam

### ABOUT CUSH'N

Cush'n is a seamless pillow, designed to be functional in open-air amphitheaters like libraries, lecture halls, educational centers and meeting rooms in the office. The seat pad can be completely customized with the option of upholstery or FlexPlus coated. The specially FlexPlus coated cushions can be used in outdoor settings as well due to the UV resistance and waterproof characteristics of the material.

# ELEVATE

## PLANTER

Accessories

### PRODUCT MATERIAL

Upholstered Wood Frame  
Wood Base & Plastic Insert & Glides

### ABOUT ELEVATE

Take your productivity to new heights! Excellent design propels an environment forward, infusing it with new energy, functional innovation and forward-thinking creativity. Before Elevate, designers were often forced to choose between a dining ensemble and an outdoor lounge grouping. Most dining furniture is not comfortable enough for extended solitary or group work, and lounge furniture is typically too low to support a working posture or collaboration with digital or analog tools and materials.

### PRODUCT DIMENSIONS

## FLEXPLUS™ COATING

### UV Color Stability\*

SIXINCH UV pigments are color stable. Passing the 4 year climate test with the color red.  
Results: less glossy, no visible change in color.

Atlas SUNTEST CPS+: Wavelength range 55 - 765 W/m, 10 cycles, 20 hour radiation test.  
Results: no change

QUV Accelerated Weathering Tester: 4 days, UV radiation, humidity – classification 0.  
Results: no change

Following products have been tested on FlexPlus: Hand cream, Sunscreen Lotion – SPF 20, Lipstick – red 461, Foundation Creme – 108 honey beige, Olive oil. These products left no visible stains nor change in appearance.

### Weather & Water Resistance\*

FlexPlus coating is weather and water resistant

Cold test: Thermotron SE-300-2-2, temperature at -40° C, for a duration of 24 hours.  
Results: no change in flexibility or description.

Damp Heat cycle test: 80hr. 10 cycles, -40°C to +85°C \ with humidity 50% RH

Dry Heat Test: BINDER incubator world test: +80°C, for a duration of 24 hours.  
Results: no change.

### Maintenance & Cleaning

Storage advice: In order to keep your SIXINCH furniture in peak condition, keep furniture inside and dry during extreme weather conditions.

Normal cleaning: use warm water with a mild detergent and a cotton cloth.

Stains: use FlexPlus Stain Remover to remove or reduce staining.

Remark: to avoid staining, immediately remove coffee, champagne, mayonnaise, red wine and other common stain agents.

### Ecology

In some cases, SIXINCH products can be repaired and re-coated, which can extend the length of usage.

The foam itself is 100% recyclable.

SIXINCH is committed to recycling waste and uses the latest manufacturing technologies.

Packaging is done to the highest standards using recycled and recyclable materials.

*\*Based on European test results*

## STAIN + REPAIR

### Safety\*

FlexPlus™ coating complies to the DIN EN71-3 standards for children's toys

### Durability\*

Aging: BINDER incubator world test – coating description & flexibility

Adhesion: Cross-cut tester ZCC 2080 – DIN / ISO 2409 n° T1079358

Film Hardness Test: ISO 15184 Pencil Test – pass from 6B until 3B

Scratch Test: hardness tester N° 5810 – pass from 1.00 N to 4.00 N (100 to 400 g)

### Foam

SIXINCH uses only the highest quality of polyurethane foam from the best suppliers in this field.

All foams are produced in North America.  
Foam: 27065 (CAL117 Flame Retardant)  
Density rating: 2.70 lb/ft3  
ILD rating: 65

### Cleaning

We recommend Clorox Clean Up Cleaner + Bleach. For best results apply immediately.

### Touch-Up

Touch-Up kits are available for all coated products. Each kit is assembled to match your specific need.

### Creased Foam Repair

We recommend using a heat gun to help pop out creased corners.
